

Supporting PUBLIC Authorities to Implement Energy Efficient Policies

Smjernica za razvoj strategija energetske učinkovitosti:

Ovaj dokument opisuje niz koraka koji vode do izrade strategija o energetskej učinkovitosti (EE) u kontekstu projekta PUBLENEF. Svaki korak popraćen je "čimbenicima uspjeha". To su prijedlozi postupaka koji se mogu poduzeti kako bi se ispunio svaki korak i najbolje iskoristile informacije i materijali iz drugih radnih paketa projekta PUBLENEF. Ovaj dokument služi kao vodič. Budući da je svaka strategija jedinstvena, koraci se mogu i trebaju prilagoditi specifičnoj situaciji kako bi se povećala kvaliteta i korisnost rezultirajućeg plana.

Cijelo izvješće na engleskom jeziku dostupno je na: http://publnef-project.eu/wp-content/uploads/2017/05/PUBLENEF_WP3_D3.2_EE-roadmap-guideline-document_fin_update-2017-01-19.pdf

PROJECT COORDINATOR:

Dr. Vlasis Oikonomou, JIN Climate and Sustainability

JIN COORDINATES THE PUBLENEF PROJECT, AND COLLABORATES WITH 12 PARTNER ORGANISATIONS:

JIN Climate and Sustainability

Center for Renewable Energy Sources and Saving (CRES)

Polish National Energy Conservation Agency (KAPE)

Research Centre for Energy Environment and Technology (CIEMAT)

Centre for Monitoring Business Activities in the Energy Sector and Investments (CEI)

ABEA - Association of Bulgarian Energy Agencies

Ob ESV - Ob Energiesparverband

Italian National Agency for New Technologies, Energy, and Sustainable Economic Development (ENEA)

European Federation of Agencies and Regions for Energy and the Environment (FEDARENE)

Energy Cities

Tipperary Energy Agency (TEA)

ARENE - ile-de-France

Local Energy Agency Bucharest (AEEP)

Groningen, Netherlands

Pikermi, Greece

Warsaw, Poland

Madrid, Spain

Zagreb, Croatia

Plovdiv, Bulgaria

Linz, Austria

Rome, Italy

Brussels, Belgium

Besancon, France

Tipperary, Ireland

Paris, France

Bucharest, Romania
